Directions to He-Man

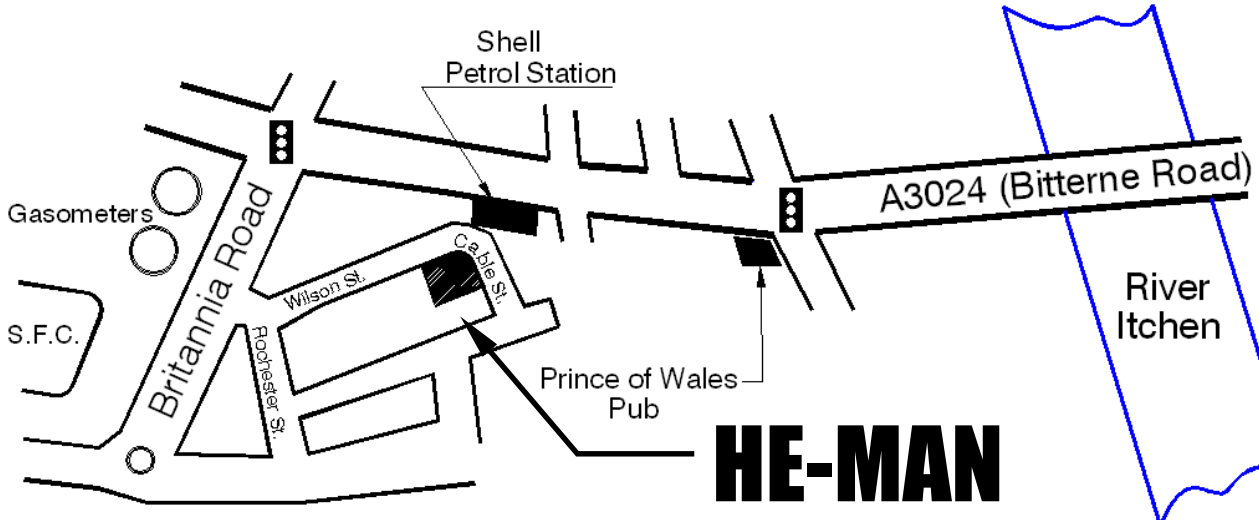

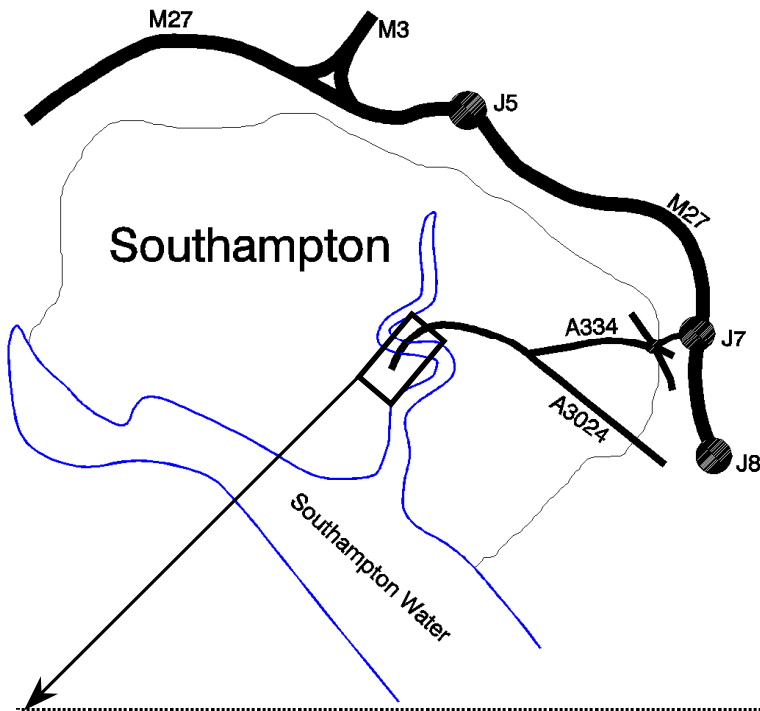

Please refer to a road map of the Southampton area prior to your departure so that you have some familiarity with the final stages of your journey.

From **Junction 7** of the **M27**, take the **A334** towards **Southampton**, this joins the **A3024 (Bitterne Road)**. Follow the **A3024** for approximately three miles, over the River Itchen bridge.

From the traffic lights immediately past the river bridge continue past a **petrol station** on the left, behind which you may see the **He-Man building**, to the next full set of traffic lights (just in front of the two **gasometers**, to the left).

At these lights turn left into **Britannia Road**, left again into **Rochester Street** and then left again into **Wilson Street** which becomes **Cable Street**.
